PIC Restriction Authorization Form

Local exchange telephone companies are not allowed to verify long distance PIC changes when a request comes in from a long distance carrier to change your long distance PICs.

By checking the appropriate boxes and by signing below, you authorize Peoples Mutual Telephone Company to add PIC restrictions to your line or to move your PIC restriction to your new Long Distance Carrier.

Once a PIC Restriction Authorization Form is signed, and a long distance carrier sends in a request to change your PIC, the request is denied.

At any time you wish to change your long distance carrier, you will need to sign a release form at our business office or call and request that a form be sent to you.

Please check the option(s) that are applicable:

Add an Interlata Long distance PIC restriction

Add an Intralata Long distance PIC restriction
